

### **St. Athanasius: The Life of St. Anthony**

Written by St. Athanasius (296AD-373AD) within 25 years of the Nicene Creed, this book demonstrates in fascinating detail what it means to live daily in a world ruled by the evil one. St. Anthony's life is viewed from encounter to encounter, beginning when St. Antony was left alone in the world with his sister as a young adult. These encounters are descriptive of what is spiritual warfare. St. Anthony was seriously tested but he refused to give into temptation and immediately became a target for attack. We can also benefit from the lessons on the power of prayer and the fruits of wisdom, as received by the Saint, later in his life.

### **St. Gregory Palamas: Homilies**

The homilies of St. Gregory (1296AD-1359AD) are important and inspiring. These two very well indexed and annotated books contain in summary the full Apostolic tradition. It is a great and exhaustive theological reference, also thematically arranged. For example: There are 10 entries for Peace, and there are 16 entries for eternal life. These Homilies are great for personal enrichment and for serious study.

### **St. Basil the Great: On the Holy Spirit**

St. Basil (329AD-379AD) provides the theological grounds for the divinity of the Holy Spirit and the Holy Trinity, based on both Scriptures and Patristic discourses.

St. Basil's work on the Holy Spirit was written for the use of Church Synods, hence it is scholarly. It consists of a survey of Old and New Testament passages that show the nature of the Holy Spirit, as being fully Divine and co-equal to the Father and the Son.
